## **YAHWEH GIVES A MAJOR WILL:**

They say you are a real prophet if you say a statement, and it comes to pass. But what you can say can be a human willing. What if the God I AM says that Satan started a world plan in a virus to keep your presentation hindered? No one would accept you. What if I make you publish this world-level message at the beginning of that power-filled training manual? Would you run and pretend that you do not know Me?

It is a way of easy ways to say that God told you something after the event is visible in natural dealings. But to say it is this way and that Satan pushed a virus forward just to keep you out of church would need a substantial backing. We must work together. You must say whatever your God gives. What plan would give proof of My message that you are a real world-level prophet? What if the powerful Yahweh comes and brings what I say forward?

What are you supposed to do? Walk in a three-year presentation. And it's being hindered. How should Yahweh give a three-year presentation when We wanted the church to feel Me surging through your way? How would Yahweh plan a counter-warring? With using the Internet. I can strip you to the real way in how you should move forward. And your way in a presentation gives grounds for a counterattack.

I can drive out power just as they look at your way. But that is not enough. The power from Yahweh must come out from your books and Internet dealings and drive power into the sick one who seeks Yahweh. What if I had My healing power flow out from your web work and eBooks? Would that power level provide a proof?

What about if power comes out of your work and your flesh that heals those who are in contact, whether with eBooks or being near? Would that have a way to call your way prophet Seersgate? Place all of the work from that teaching way under our way of permanent plans. Build a great outlet, prophet. I will call you Seersgate, for Yahweh will give your spirit a way to walk under a portal from the storehouses in Yahweh's Kingdom.

As a gateway, no one should ever praise you. You are just a servant, not God. And you should feel great privilege. It's power and not natural wealth. What rich person out there can give a healing surging? It's power. You ignore famous ones who try to gain attention for their common human words. You need power.

If I start the transitional way of power on Mother's Day, I will not ever end the power. You are bound to your Great Yahweh, and only by natural death are you unchained. With My vow of covenant, I vow to back you. I will not have favorites in My Kingdom. My vow of covenant comes with the weight of the message. I back up My prophet so that My ultimate plan will come out and within others like you—flesh and blood.

And that is why I stand with Our world-level prophet. Someone has to give it out. And now that you are done with the thirty-year novice training, the transition into a three-year presentation can lead over all other ways. *Death* is an actual spirit that holds all of the dead in a *hold* plan called the Death Phase. No one who is dead is not under the death curse. And that's the level of power that must come out of your prophet's mantle to begin. That says that your spirit has to take on the full weight of the power even from the early days. That will require a spiritual stripping to take in the great work.

Your weight gain of seventy pounds can be removed in a few short natural months. The weight gain was only given so that you can see. People gauge other people by their weight gain. So, that training lesson is done with. While you turn into the way of presentation, there will be a surging coming out from the work. By forty days, forty pounds should be removed. This is all vegetables. And Mother's Day will start our year of preparation. Preparation for what? Power—the level that raises the dead out in the public way.

Why such a delay in presentation? Satan's plan in pushing the virus hindered us. And now we had to shift a whole year. Does it sound like Yahweh's power is weak? Why can't Yahweh just wipe it out? Yahweh's power must come out through your work plan. Within six months, with a way in great beauty, the surging will lead and will build up till you are full.

So, it may seem like we are stranded in a virus that will hinder the work with the Internet way, but it will not. Nothing will. So, build the world-level platform. Let Me push it. Sounds like a covenant backing.
