

WHAT A PROPHET CAN SEE

Seersgate's Personal Way

SEERSGATE SHARES HER WAY TO HEAR AND SEE IN PROPHET DEALINGS:

I sit here and ponder all the work humans manage. Wondering if all that data can be stored is one thing, but to really think about how Yahweh gives His wisdom will not be released in a similar plan. That says that a prophet will not already carry the surging level of wisdom to bring forth the full office duties and workload of the sphere given to govern.

Here are a few thoughts to consider: Let's say you have a degree in Theology and study the Word of God. Will studying and learning from other humans grant a complete understanding of how to write sermons? If a person takes up music lessons, will there be an intuitive understanding of playing very advanced classical pieces? Will the wisdom to play a musical instrument come from staring at the sheet of music? Can a surgeon operate on a human body just from reading a book, or must hands-on training sync with the school studies?

Yahweh's prophets are no different when it comes to active engagement. Every prophet under Yahweh's Kingdom order must go through Cave training. The Cave training is a season where Yahweh begins to strip away the fleshly ways from a person's character and brings a novice face-to-face with the reality that there are hurts, painful experiences, and low places that need to have a review within Yahweh's way of seeing. Not only is the Cave training used to reveal the true nature of the one who yields, but Yahweh also begins to reveal His nature to the novice and gives them tester work duties to see how well they follow and obey His will.

When Yahweh activates a prophet's spirit for training, there is no process the novice takes beforehand to get ready for such a level of engagement. Yahweh takes a look at the novice and decides if the plan of spiritual stripping can move forward. No human can beg Yahweh to make them a prophet, and no amount of declaring and proclaiming and laying on of hands will push Yahweh's way into natural seeing.

MY LIFE

And so, how do I engage Yahweh? After thirty years of novice training, I must state that Yahweh has pushed forward various training outlets to get me to sync and take on His plan. In the beginning, I took on a significant load of spiritual treats. These spiritual treats were not natural food novelties but catered to building up spiritual cravings. There I was, taking in seeing and hearing spirits of the unseen realm, and I thought that everyone else was dealing with Yahweh in the same way.

Sometimes, Yahweh would give me visions or dreams to whet my appetite for deeper engagement. Some of the visions made me upset due to not being able to continue daily with that level. No spiritual treat stems from good behavior, for no one can bend Yahweh to their human craving to see and hear just to say we can. I had no control over when Yahweh would let me see a spirit or would let me hear Him as if He was sitting right next to me. Yahweh made it where He was the only training plan that would build in a lesson structure while stripping away the fleshly cravings for power and dealings of woundedness.

HOW I ENGAGE

How do we know how prophets engage? See it from my point of view. I can be carrying on a conversation with a human, and at the same time, hear the Great Holy Spirit tell me what to say to that person next. Sometimes, when I give counsel, Yahweh would give me a vision of an object or a situation that would benefit the hearer and bring them closer to Yahweh's plan.

When I do not know what to say to others in need, Yahweh will give phrases or entry words to start a new topic so I would know I am heading in the right direction in what is shared. Sometimes, I hear Yahweh say, "Tell that person this: _____" while I'm in the conversation itself with that person. I usually carry a notepad everywhere I go in case Yahweh wants to say something or have me write down a task to take care of later.

Here is what it is like getting spiritual seeing and hearing. For example:

You are reading a book, and you have your TV or radio on playing in the background. You are aware of hearing a conversation on the TV or radio, but you can also tend to other details in the meantime. Yahweh does this with me where throughout the day, I can hear His thoughts or see glimpses of visions and receive ideas (I cannot speak for other prophets.).

I can do chores or run errands and yet receive Yahweh's spiritual wisdom of glimpses of plans, ideas, and conversations. It's not because I do anything on my terms to make something happen. The prophet has a covenant with Yahweh to keep moving in a synced way to perform His will with understanding what is to happen. Even though I can continually drink from Yahweh as He wills, I cannot act on what is yielded until I get the go-ahead to do so in a formal meeting with Him. Sometimes He would say, "You are seeing something from a future plan," to ensure I do not wait on instruction at that moment or impulsively go and take care of it.

To get insight from Yahweh, I don't have to sit in a prayer position, play "soaking music" in the background or speak in tongues, to give a few examples. Yahweh continually shares His plans as if there is no cut-off switch to the hearing and the seeing. That is how Yahweh trained me in the prophet's office. It makes it quite different from how people declare plans based on emotions. Yahweh is sharing, day and night. Sometimes, He says He knows I am tired and lets me go to sleep while still hearing and seeing what He is doing next on the agenda.

THE PROPHET'S SPIRIT INTRO

Now, every real prophet has the prophet's spirit.

THIS UPGRADE TO HAVE A PROPHET'S SPIRIT DOES NOT REFER TO HAVING ANOTHER SPIRIT IN YOUR MAKEUP AS A HUMAN.

The human is body, soul, and spirit. And believers have the Great Holy Spirit. To say that a person has a prophet's spirit is to say something equivalent to stating that a person has an engineering mind or an analytic mind, or they can pick up on a certain skill with ease.

What Yahweh does, He literally upgrades a person's spirit to take on the workload and continual spiritual engagement from Him so they will not break under pressure. And based on the prophet's level of their given sphere of influence will determine how many spiritual upgrades are needed to bear the weight of the work and endure engaging the unseen.

The enabling in office duties by upgrading the person's spirit avoids putting new wine in old wineskins. And people do this way of "bursting a wineskin" by placing a person on a platform when they have not grown into the way of godly character and preparation, which no one should skip. And the spiritual upgrades in the person's spirit take on a "prophet" nature to see and hear without spiritual breaking within, which is why the human in the prophet's office is said to have a prophet's spirit.

REMOVAL

When a prophet is removed from the prophet's office, it will feel like the power goes out while watching TV. The background goes quiet, and you cannot get any seeing or understanding from Yahweh's table. And this is where a lot of prophets get into trouble when they don't seek Yahweh as to why they are not receiving from Him as they once were.

One time, Yahweh “turned the TV off” in my spiritual engagement with Him. I felt like I lost my constant meeting privileges. It’s as if I was sitting in the background of an office meeting, taking meeting notes, but then the workers placed me behind glass with a sound-proof screen where I could no longer listen in.

CONTINUAL SEEING

And while walking down the street, sometimes Yahweh will let me smell the spirit realm.

When Yahweh permits it, I can tell if a person has a particular demon. Yahweh will let me at times smell a demon to know which one is present. I have also been trained based on Yahweh’s revealing it where He shows me a person’s motive. Yahweh would say that a person is thinking about a certain plan, or their real motive is different from what they project and to avoid engagement.

Lately, Yahweh started training me to hear private conversations as if I was in the room or listening in on a private phone call. These prophet traits are similar to how prophets of old operated. You can review First and Second Kings to gain a well-rounded understanding of prophets of old. And this is how Yahweh trained me. More details will come when Yahweh leads it.

I am not unique in the plan that I am better than any human. If you knew what I had to deal with to take on this level of spiritual engagement, you would most likely run and not look back. See it; I am here to preach the Kingdom and prepare the world for the return of Christ. Yahweh gives me a reformation way, and this mantle brings great rejection. And the level of work is geared to bring changes in the world, with Yahweh’s healing room plan. If you have a longing to serve the God of the universe, let’s work together. I don’t want to steal your people. I want to give them what Yahweh gives.
