## **YAHWEH GIVES A REALLY VALID SEEING:**

You heard a conversation from Heaven. You heard a dead man who was talking to an angel, his guardian angel. The guardian angel told the dead man that he would have to return. The dead man said, "No!" but the angel told him, "There is no way to avoid it. You will have to work with her once you are raised." And then, the dead man was told that you heard the conversation. And he marveled at that. How could you hear a conversation from Earth as if you were in Heaven? How did you hear the screams of those in the Hell? I allowed you to.

I showed you that woman, that bitter one who wanted your actual death. I showed you her future, burning in the lake of fire, tormented for all of eternity. You know what she looks like. There is no fear in saying My will. You want to see the fullness. Who can halt Yahweh's great will? Who can stop Yahweh? What I showed you was only made so due to the prophet traits that you carry. These prophet traits are not gifts of the Great Holy Spirit. What I give you are seersgate traits.

"What kind of prophet is she?" That is what the dead man wondered.

You see the face of that other. You long for another opportunity to tell him the true way, that there is an eternity, one in Heaven or the lake of fire. But that man, servant, he did not know Me.

I want to show you some of the horrors of the Hell. Over this week, I will give you a brief view. I would like for certain ones to re-create the scenes. A movie named Damned would be a great plan.

Are you ready? So, tomorrow, We can take you into another way of seeing. Just as I taught you how to know My will just by Me showing you My way of thinking, watch what I have you take in with these visions.

I so love that you gave it all up for Me. And from your heart, you did this way. The hell is very real. It may be called other things in other languages but know without a doubt that there is a way of torment. This way of torment is for those who have chosen to be without Me for all of eternity.
