

HOUSTON WOULD COLLAPSE: THE HEALING ROOM DILEMMA

March 4, 2023

12:09 p.m.

YAHWEH IS LEADING THIS WHOLE DETAIL. HERE HE SAYS THIS:

What way is a better way? Should Yahweh come and bring healing rooms that would heal every illness as a sign of what is to come in future dealings? And what would happen to the economy if I brought healing rooms? I would bring forward the tithe to build it. In that plan to drink, everyone who enters must give a tithe to honor Yahweh. "Explain it in further ways" would be their saying. There is no current requirement to give a tithe. Give from the way Yahweh places within. Do not give out of guilt or peer pressure. Do not give to receive of selfish motives.

Stand firm in what is being given. They will beg for a healing room when creative street ministry comes forward. They will beg that you come and visit their church. I gave you private sign gifts that made you feel power, but no one will stand with anyone with just verbal sayings. They have a lot of ministers who already give them fake promises and fake healing claims. They are a weary (tired) way. They have no more tolerance to hear stories without having power bring forward a real proof.

There will need to be a tithe at the entrance, not within. The Healing Tabernacle will not gain income. A separate building will gain the tithe to have a maintaining way of running the healing room. How will the healing room be maintained? Former hospital workers who will stay under My provision will have a flat salary and must stay a set apart way.

Any hospital worker who loses their income will have an option to take Kingdom work while in natural ways. They can relocate to any nation with a built-up healing room that can house them. Here is a grave warning: to the workers that come and stand in the tabernacle: Do not think you can live a double life and serve Satan on off days. I will give

sickness or death to those who will serve Satan and embrace wickedness. The way of staying holy and set apart is a spiritual mandate. I, Yahweh, will view the way you go to and fro and will say to you when an area must come under Kingdom order.

Why is Yahweh this strict with those involved with the healing room? They will take part in being around humans offering worship to the One True God with a removal of the grace banner. With grace in the current Church era, there is rampant sin, and no one weighs how the grace factor hides My anger.

With the healing tabernacle, there will be a potent way of telling Yahweh is there. There will be a setup of power surging as if living in the days of old: instant judgment, instant death, and sentences that seal a person's fate in an instant. And the tithe is not to build up the workers. The Healing room will be the approximate size of the distribution center in this photo.

YAHWEH CONTINUES:

The running fees to hold such a plan would not be under thousands per day. And just as how Solomon needed a tithe or also called a tax, to gain the wealth for his house and for the house of the LORD, I will require land and buying the property and funding the workers and the skilled workers of music and Bible preaching. All must be done in

excellent ways to bring honor to Me. Servant, the tithe is 15 percent to give a maintaining way and to have other healing rooms built up.

But look at a future reader from the book project. They will say, “you cannot say Yahweh will bring back a tithe, much less make it greater than what the people were told.” But Yahweh will not have to beg you, dear reader, to give your tithe to Yahweh. But why? Street ministry, with seeing creative plans of healing and deliverance. You will beg Me to build a healing room.

Dear reader, you will beg to have your own healing room in your local city due to seeing, ahead of time, what is coming in the healing room. Imagine this. Dear reader, think of a sick person who begged Yahweh to heal, but nothing happened. What if there was a book that had some prayers to pray to receive instant healing, and you gave Me a chance to come and heal? What is your response to that? Would it phase you that Yahweh is really healing people who covenant with Him through a prophet’s mantle? Wouldn’t you send every sick person you know of and beg them to pray to Yahweh for healing?

What if your loved one recently went on into the death phase, and they are currently held at the morgue or funeral home? What if We—Yahweh—gave a promise to raise the dead who died in that week and are in the morgue or haven’t been drained? What would your response be? And would you honor Yahweh by giving a tithe when the healing room plan is pushed forward? If your child had cancer, wouldn’t there be some begging? But that is what is unique with the healing room: no begging for healing is needed. Unless you are damned to the lake of fire or with a curse that withholds healing, your way will gain a moment with Yahweh if the way of humbling and cleansing covers your way.

Now, what would I say to Houston? They are currently under a curse. But if they were free from the curse, their way would not be able to handle a healing room. Look at the city that houses this way of a medical center. They bring in great income to bring medicine to many. A major sick hub is Houston, building a city from insurance claims and vendors and hospital stays, and research. Look at what a healing room would do to a very large

city in the United States: make it a desolate place with low income with great weight of debt. Who pays for the people who had bills when in the hospital if the hospital doesn't stay open? Who pays the bill and writes the medical professionals a severance check? Yahweh would have to make provision for the plan of bringing a placing in healing.

Houston carries one of the largest medical centers in the world. Can that have no bearing if there is a shutdown? Divert the workers is a suggestion. But what of the millions who plan to see this new way, a healing room? Turn hospitals into living spaces for those who travel in sick and need to wait a few days due to heavy crowds coming in to get a moment in the healing room. Instead of taking all the resources, Yahweh will heal groups in stages. Small healing groups so that there will be a way to get workers prepped for their new placing.

Houston would die off if I went and healed all who take in cancer or sicknesses that bring great income within the district. There would need to be a transfer in skills from the medical plan to flow into housing and training centers for bringing in Kingdom harvests. Will these hospitals easily yield their buildings with words? No. There must come real proof of stages of building up real Kingdom power. And because the power is surely greater than any prophet of old dealt with in the presentation to the people, there must be stages of sharing this level in real outlets.

Who will seersgate need to have a business covenant with? The literal congress and the state representative. They will have to make major tax breaks to hold Me in their state due to what I will give into their way in provision. Yahweh can singlehandedly remove all debt in return for a full allegiance to Kingdom order. What does that detail encompass? What was in the days of Solomon with a building up of houses to house My great presence? With today's churches, they sway with what the people want. But there is a prophet who was trained for over thirty years to see if there would be a breaking away from following. The servant yielded fully when Halloween of 2010 came forward.

What is the current way of order? Do not stay here. Leave the cursed land. Begin Internet ministry. Let the heretics and the speakers against the heretics join in as one unified way and say you are the most dangerous and heretical way ever to live. Let them say you are a fake and you carry Satan within. Let them mock My work and bring harsh criticism against you. We will wait. We will let them put you in their jokes.

We will view them. I will look at their actions for a season. And then I will move forward in real surgings. So, keep building these four websites for the work, and prepare for podcasts and YouTube. I choose to build. I will see what the people do with this work and let them mistreat you. That is where you are trusting in Yahweh to help you.

When the spiritual doors shut in this new plan, the rain will come. I will gently remove grace and will counteract the nation's lowercase gods within the current nation. And what will be a stable way in location for the first healing room? Washington, in territory, but build it in Leesburg, away from the heavy road traffic coming in. Prepare. It is here what was spoken of by the writer Joel and mentioned in the Book of Acts.
