YAHWEH STAYS WITH HIS SERVANT IN THE WORK:

The powerful Yahweh must have a way to bring forward all that Yahweh wills. It is power, not natural wealth, that is to come forward. See it. I can fill you with a great surging power that can make a person fall under. Is that enough power, or would a greater surging of My power need to come out from your mantle? What if I cause the people to get power in their fleshly way? What if they touch your work and turn? You're not excited. I need to bring power surgings forward.

See how you can't stop falling under? My work is power filled. You have a great work; I just could not let anybody know about it. You are moving forward. You had to taste a different plan of rejection from a varied group. With such great transforming power, you had to be aware of how others are. The wilderness is through. The work way has started. It's going to get hard when they speak out against you in their church ways. But when they move against you, My great power will surge forward.

Power Over Death—That is the real book cover, and that is the real book title. The powerful Yahweh is able to bring back any dead person. What's going on with the deaths from the virus? Satan is shedding innocent blood as a trophy. A casualty of war is what I would call each death—a way to shed innocent blood. And there must be a great blood that can heal, deliver, and resurrect. Now, think of Satan's snare in which he trains his human servants. He makes them cut themselves, shed their blood, or the blood from others who covenant with him.

The blood brother, sister, or friend will tie their souls under a blood ceremony so they can take on a deeply embedded soul joining. The blood is the way to contain life. No

dead person has flowing blood moving through their veins. They are bloodless, and whatever life form is there, the way of life signals no union. The flowing blood is an indication that the Death spirit is not holding that person under a territorial right.

Share those entries that tell of the ways of battle with Satan. The church plan is tempting others to wage war against Satan without spiritual backing. I will not yield to the human feeling of pain and torture. I must look at how My ultimate power plan must come to the natural. And I must bring a Kingdom order forward. I am not the way of the plan that is killing outside of My death sentences. Satan wanted to keep you back. Share those entries now.
